Ken Krieg to Join TASC, Inc. Board of Advisors

Chantilly, VA – July 14, 2010 – Ken Krieg, former under secretary of defense for Acquisition, Technology and Logistics, has joined the Board of Advisors of TASC, Inc., the leading provider of advanced systems engineering and advisory services to the intelligence and defense communities, as well as to civilian agencies of the federal government.

“Our Board of Advisors holds deep expertise in the areas critical to TASC’s continued growth,” says Wood Parker, president and CEO of TASC. “Ken’s experience in federal and, specifically, Department of Defense acquisitions will give us valuable insight into the needs and opportunities of our customers, as well as help us stay ahead of industry trends.”

Currently, Krieg runs Samford Global Strategies, a consulting practice he founded which focuses on helping clients through periods of strategic change. He previously served from 2005 to 2007 as under secretary of defense for Acquisition, Technology and Logistics, and as special assistant to the Secretary of Defense and director for Program Analysis & Evaluation. Before joining the DOD, Krieg worked for International Paper for 11 years, and also held a number of defense and foreign policy positions, including posts at the White House, on the National Security Council, and in the Office of the Secretary of Defense.

Krieg earned a B.A. in history at Davidson College and a Masters in Public Policy from the Kennedy School of Government at Harvard University.

About TASC

TASC is the premier, non-conflicted provider of advanced systems engineering, integration and decision-support services across the intelligence community, Department of Defense and civilian agencies of the federal government. Formerly a unit of Northrop Grumman Corporation, TASC became an independent company in December 2009. For more than 40 years, TASC has partnered with our customers toward one goal—the success of their missions. Our broad portfolio of services includes system and policy analysis; program, financial and acquisition management; enterprise engineering and integration; advanced concept and technology development; and test and evaluation. With nearly 5,000 employees, TASC generates more than \$1.6 billion in annual revenue. For more information and career opportunities, visit our website at www.tasc.com.
